Date: 8th December, 2023

Brand: Strata Geosystems

Brief: School CSR – Press Release

FOR IMMEDIATE RELEASE

Strata Global and Rotary Club of Mumbai Western Elite Collaborate to Rebuild Prathmik Shala (primary school) in Daheli Village, Valsad

Valsad, Gujarat – 9 December 2023

In adherence to our commitment to social cause and the creation of a positive legacy for future generations, Strata Geosystems is proud to announce a significant initiative in partnership with Rotary Club of Mumbai Western Elite for reconstruction and furnishing of Prathmik Shala in Daheli village, Valsad, Gujarat.

The impetus for this project arose when the local village panchayat and the principal of Prathmik Shala approached Strata Geosystems with a pressing issue. The school, tutoring 260 children coming from a local village and studying in grades 1 to 8, faced the threat of permanent closure due to its dilapidated structure and safety challenges.

Recognizing the potential impact on the lives of these children and their families, Strata Geosystems and Rotary Club of Mumbai Western Elite took swift action. The village of Daheli, where over 91% of the population belongs to the economically weaker section, heavily relies on education for its future generations, given the predominant occupation of agriculture.

The collaborative effort resulted in the successful reconstruction of Prathmik Shala, now featuring a state-of-the-art, three-storey building equipped with essential amenities such as full-fledged computer and science labs, clean water and sanitation facilities and a faculty lounge. This initiative aims not just to provide a physical structure but to serve as a beacon of hope for the people of Daheli, offering them access to foundational education and a brighter future.

Strata Geosystems acknowledges and appreciates the support received from local leaders, rotary clubs that has rallied behind this cause.

"Education is the cornerstone of progress, and we believe in building not just structures but opportunities for the future," said Narendra Dalmia, Director & CEO at Strata Geosystems.
