

# Dredging of Gold Tailings Dam (WA) (HDPE Lined Pond)

<b>Material Pumped</b>	<b>Gold Tailings</b>
------------------------	----------------------

<b>Depth Pumped</b>	<b>1-5 m</b>
---------------------	--------------

<b>Pump Capacity</b>	<b>4000 L/min (clear water)</b>
----------------------	-------------------------------------

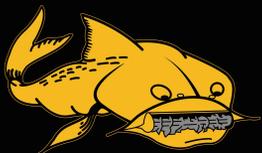

<b>Slurry Ratio</b>	<b>15%</b>
---------------------	------------

<b>Slurry Pumping Flow Rate</b>	<b>202 m<sup>3</sup>/ hr</b>
-------------------------------------	------------------------------

<b>Average slurry extraction</b>	<b>1617 m<sup>3</sup>/day*</b>
--------------------------------------	--------------------------------

<b>Average wet solid extraction</b>	<b>242 m<sup>3</sup>/day*</b>
---	-------------------------------

<b>Pumping Distance</b>	<b>180 m</b>
-------------------------	--------------
