

Alex Webb presented a paper on combustible cladding at InterFlam 2019 (UK), a key international conference on fire science and engineering. Co-authored with Dr Anja Hofmann from **Bundesanstalt für Materialforschung und -prüfung** (the German Federal Institute for Materials Research and Testing), the paper examined changing regulations for building facades in UK, Germany and Australia. Audience discussion also noted **CSIRO's** earlier research paper written for the United State's NFPA by Nathan White as a seminal work in this area.

CHANGES IN FAÇADE REGULATION

UK, Germany and Australia

- Mr Alex Webb, CSIRO, Australia.
- Dr Anja Hofmann-Böllinghaus, BAM, Germany.
