

PRESS RELEASE

CONCRETE CANVAS INITIATES ENFORCEMENT PROCEEDINGS AGAINST EUROBENT FOR BREACH OF PRELIMINARY INJUNCTION (FINAL)

28 APRIL 2020

Concrete Canvas Technology Ltd. wishes to clarify that Eurobent's most recent communication regarding the dismissal of its appeal against the preliminary injunction is misleading and contains factually incorrect information. The below are matters of fact:

- 1) A Preliminary Injunction that prohibits Eurobent from manufacturing, offering, importing and putting Tiltex™ on the market is in force in Poland.
- 2) The Preliminary Injunction is final (Eurobent's appeal has been dismissed).
- 3) Eurobent has made three attempts to reverse the Preliminary Injunction; all have been unsuccessful.
- 4) Concrete Canvas Technology Ltd. has initiated enforcement proceedings in the Polish Courts as it has obtained evidence that Eurobent has wilfully failed to comply with the Preliminary Injunction.

The fine for non-compliance remains amongst the highest on record set by a Polish court for a case of this type. Concrete Canvas wish to reiterate that they will robustly seek to enforce their intellectual property rights where they are being infringed by a manufacturer, distributor or otherwise. Patents exist to protect and encourage investment in innovation. It is in all of our interests to respect the law, including patent law.

ABOUT CONCRETE CANVAS

Concrete Canvas Ltd. was incorporated in the UK in 2005, it manufactures three award winning products, Concrete Canvas®, Concrete Canvas Shelters™ and CC Hydro™. These products were developed to exploit a unique material technology invented by Peter Brewin (MEng) and Will Crawford (MEng) whilst studying Industrial Design Engineering at Imperial College and the Royal College of Art in London.

Concrete Canvas Ltd's core material technology enables the supply of unique construction solutions that are extremely fast, easy to install and environmentally friendly. The company prides itself on innovation, quality and responsiveness to our customers' needs.

The primary markets for Concrete Canvas Ltd are in the civil infrastructure (road and rail), mining and petrochemical sectors where CC is used for erosion control applications such as channel lining, slope protection and bund lining. The company has grown rapidly since 2005 and has sold its products to over 80 countries around the world.
