

ICOLD Tailings Committee announce a full week of tailings activities at ICOLD 2024

Registration is now open for tailings related events at ICOLD 2024 in New Delhi India. These include:

- A 2-day short course on Surveillance and Monitoring of Tailings Facilities and Embankment Dams 27th/28th September,
- Workshops on Risk Assessment for tailings dams and discussion of new ICOLD Bulletins on risk and surveillance for tailings dams on 29th September,
- ICOLD Technical Committee L meeting on 30th September – all welcome,
- International Symposium including tailings papers 1st and 2nd October,
- Workshop on Design of Tailings Storage Facilities for Closure 2nd October,
- Workshop on Safe Tailings Dams – based on Bulletin 194, 3rd October morning, and
- CDA Short Course on Tailings Dam Breach Analysis 3rd October afternoon

Workshops, committee meeting and the International Symposium are covered under general registration at <https://www.icold2024.org/#/home>.

Follow the drop-down menu under “Program” to “Program Tailings Dam Committee L” for more information on tailings specific events.

Registration for the short courses on surveillance and dam breach are separate to the main ICOLD registration (use link <https://reg.icold2024.org/>) and can be attended separately or in conjunction with the main ICOLD program.

A pre-conference site visit to Udaipur and Zawar Refinery TSF is also available through the above link.
