

**TECHFAB INDIA'S IN-HOUSE QUALITY CONTROL LABORATORIES
RECEIVE THE PRESTIGIOUS GAI-LAP ACCREDITATION**

In our continuing quest for excellence, we have achieved one more very significant milestone. TechFab India is extremely happy and proud to inform our esteemed customers that three of our in-house quality control laboratories have secured the prestigious GAI-LAP accreditation.

The *Geosynthetic Accreditation Institute Laboratory Accreditation Program* (GAI-LAP) is an internationally renowned accreditation program for geosynthetic testing laboratories, managed by the Geosynthetic Institute, USA. This program is a test-by-test accreditation program which is based on site audits and annual proficiency tests. GAI-LAP accreditation is a formal recognition by one of the world's leading authorities on the testing of geosynthetics, that a testing laboratory is competent to carry out specific tests which are individually accredited.

We are certain that the quality compliance certificates issued by our NABL and GAILAP accredited in-house laboratories would further boost the confidence which our valued customers have always placed in our products. However, we are not going to stop here; we will continue to look for newer challenges, to serve our customers better.

As India's leading manufacturer of geosynthetics, TechFab India Industries Ltd., has always been committed to provide our esteemed customers the widest range of world-class geosynthetic products and associated services. One of our foremost concerns is to assure the quality and consistency of our products and we had taken a series of measures to ensure this:

- ✓ ISO 9001:2008 quality management system certification for our manufacturing facilities
- ✓ NABL accreditation for our in-house quality control laboratories
- ✓ Many of product ranges have CE Mark Certification
- ✓ TechGrid Geogrids have the prestigious BBA certification.
- ✓ TechGeo Nonwoven Geotextiles are qualified under the National Transportation Product Evaluation Program (NTPEP) of the American Association of State Highway and Transportation Officials (AASHTO)
- ✓ Our products have been tested at several internationally renowned independent accredited laboratories like TRI/Environmental USA, BTTG UK, BICS UK, tBU Germany, SKZ Germany, Asian Institute of Technology Bangkok, PSB Singapore etc.
- ✓ Our products are subject to frequent third party testing at leading independent laboratories in India like BTRA, SASMIRA, IIT Bombay, IIT Madras and IIT Delhi.
- ✓ All our factories have well-equipped in-house laboratories, which carry out quality control testing on a regular basis.

We once again assure you our total commitment to quality and look forward to your continued patronage.
