HDPE GEOMEMBRANE LINERS FOR GIANT FISH FARMS IN ARID REGIONS – DESERT AQUACULTURE

An aerial photograph of a large, multi-sectioned water park lagoon. The water is a vibrant blue, and the surrounding areas are landscaped with palm trees, sandy beaches, and various water park structures. On the left, there are several large, circular, green-roofed structures. On the right, there are slides and a building with a green roof. The lagoon is surrounded by a white HDPE geomembrane liner, which is visible as a white border around the water. The text "WHITE HDPE GEOMEMBRANE LINERS FOR CRYSTAL LAGOONS IN ARID AREAS" is overlaid in the center of the image.
