## PRESS RELEASE

### REF. TILTEX MANUFACTURER EUROBENT ORDERED TO PAY €1,000,000 TO CONCRETE CANVAS

Eurobent sp. zo.o. ("Eurobent") has learned of a decision by a lower instance court dated 11 February 2021 to award a compulsory sum in favour of Concrete Canvas Technology Ltd. of PLN 4,500,000 based on the allegation of breach preliminary injunction issued in the dispute concerning patent PL/EP 2027319. Eurobent does not agree with it as no breach of that injunction has ever occurred and in particular no goods prohibited by that injunction have been manufactured or traded. The decision has been issued erroneously without evidence of any breach of injunction on part of Eurobent and in particular without proper review by the lower instance court, to what kind of goods does the injunction pertain. The decision of 11 February 2021 is not final and can be appealed. It has not been delivered to Eurobent yet, and it will be vigorously appealed as soon as it is received from the court. Eurobent believes that the Polish courts will soon correct that unfortunate mistake.
