

COLETANCHE

**BITUMINOUS GEOMEMBRANE FOR
WATERPROOFING CIVIL ENGINEERING STRUCTURES**

A gold mine in Queensland

SC1 base liner
140m x 5.1m rolls

ES3HFA slope liner
HFA = High Friction Angle
1:1.75 slope

Resistant to wind uplift
High Mass Per m^2
SG = 1.2
Minimal ballasting

Future tailings level

Dry tailings

Tailings depositing
