GIGSA & IWMSA: LIVE PANEL DISCUSSION

2 March 2021
16:00 - 18:00 CAT

WEBINAR

A live **Panel Discussion** will be held in which an array of industry professionals will address and debate the following topics:

1. Implications of project-specific welding specifications on performance.
2. The “old” versus “new” Electric Leak Location Standards (ASTM D7007 and ASTM D8625).

The discussion will include an introduction to the DWS checklists for design readiness of basal containment barrier systems and for capping closure systems for waste management facilities. If time allows, CQA principles and plans for different facilities will also be addressed.

The panel facilitators include:

Charl Cilliers

(GIGSA President)

Mishelle Govender

(Chief Directorate – Hazardous Waste Management & Licensing, Department of Environment, Forestry & Fisheries)

Kelvin Legge

(Chief Engineer, Department of Water & Sanitation)

The panelists include:

Jabulile Msiza

(Head of Waste Department, Jones & Wagener)

Keith Mnisi

(Director at Triage Business Solutions)

Nash Dookhi

(Engineer with WPI)

Leon Grobbelaar

(Past-President of the IWMSA)

Karl Bester

(Chief Engineer, Department of Water & Sanitation)

Karl Bester
