

MATTEX GROUP : Expansion in Woven geotextiles

The MATTEX GROUP, started its production in 1996 and has since become a global leading company in the production of Woven carpet backing, woven and non-woven Geotextiles, Agrotextiles, technical fabrics and artificial turf.

The strategic production location of the Mattex operations give access to the best polymers in the market. The manufacturing facilities are conveniently located next to the sea ports of Jeddah and Al Jubail – KSA and Abu Dhabi and Dubai-UAE. The Non-woven geotextiles business – producing in Al Jubail – Saudi Arabia- has grown quickly and produces currently one of the highest spec nonwoven in the market serving the local and selected export markets. The increased demand also for woven geotextiles lead to the development of a woven geotextiles range.

Due to the increased demand of woven carpet backing, Geotextiles and Agrotextiles has Mattex expanded its production capacity in Dubai – UAE and Jeddah – KSA with another 100 million square meters. Brand new and –state of the art – extrusion, beaming and weaving looms have been successfully installed in 2020 in Jeddah. Mattex typically has the newest technology, is vertically integrated and aims to produce the best quality in the market. **The total production capacity of Mattex reaches now over 600 million square meters/year.**

The increased focus is on the woven geotextiles on light weight slit tape (200 / 315 / 400 lbs or 20 - 40 - 50 kN/m) and monofilament and custom made leno weave and monofilament fabrics. Mattex has the ambition to develop further the geotextiles and industrial fabrics product range. Mattex is globally represented and has several warehouses close to its clients. The presence in the USA with a massive warehouse allows Mattex to give a great service to its Northern American clients. Where possible are the goods sold immediately to the final client but where needed is a locally available stock available. Mattex produces and stocks standard products and develops custom made fabrics.

Mattex Dubai LLC – Woven production facility

Mattex Al Jubail – Fibres and Non-woven production facility

Mattex USA, Calhoun, GA, USA - warehouse
