

28 November 2023

### TO WHOM IT MAY CONCERN

RPC Pipe Systems would like to advise that its distribution partner, Global Pipe, and its sub-distributor Reece Civil/Viadux now has access to the full range of Flowtite® CFW-GRP products manufactured by RPC Pipe Systems. As of 1 October 2023, the Global Pipe and Reece Group (Viadux and Reece Civil) can promote, stock, and sell all of the RPC Pipe Systems produced Flowtite® piping and related fittings up to DN3000, including jacking pipe.

Further, as of 1 January 2024, RPC Pipe Systems will be selling its Flowtite® CFW-GRP Pipes and Fittings exclusively through the Global Pipe and Reece Group (a sub-distributor of Global Pipe), making it the only channel for accessing the Flowtite® range of products in Australian and New Zealand markets.

Our decision to appoint an exclusive distributor is in line with RPC Pipe System's focus on Continuous Improvement ensuring we are providing the best possible service solutions across both quality and delivery needs.

The purpose of this letter is to ensure that the revision to the supply chain for the RPC Flowtite® products is clear. Please be assured that the supply will continue seamlessly as we transition to the new exclusive arrangement.

RPC Pipe Systems is proud to continue to manufacture the RPC Flowtite® products in Australia with Global Pipe and the Reece Group as our sole distributor.

Thank you for being an integral part of our success, and we look forward to sharing the benefits of this exclusive supply partnership with you.

Should have any queries please do not hesitate to contact the undersigned.

Yours Faithfully,

Nerida Grudnoff  
General Manager  
RPC Pipe Systems
