Subject: **Waterproof Membranes 2017 - Present your paper**

Reply-To: ge@amiplastics.com

Waterproof Membranes 2017

14 -16 November 2017, Maritim Hotel, Cologne, Germany

11th annual international conference focusing on technical and market developments for waterproof membranes in construction and civil engineering applications

Dear Dr. Scheirs,

We would love to receive your paper offer for **AMI's Waterproof Membranes 2017**. If your paper will be confirmed, you will attend the conference **free of charge** and get to speak in front of the broad audience while networking with the international participants during one of our complimentary networking opportunities.

For an overview of suggested topics, **see below**:

- regional/global market trends and/or drivers - by materials or applications
- design and selection of waterproofing for geomembranes in civil engineering applications such as reservoir liners, landfill covers, mining
- roofing materials - specification, experience, options
- new materials or performance improvements for bitumen, thermoplastics, elastomers, reinforcement, additives, pigments
- membrane structures and manufacturing technologies, processing
- installation technology, adhesion, sealing and joints
- properties: weathering, fire resistance, lifetime prediction, windlift, chemical and root resistance
- quality control, testing and certification of membranes
- "green" aspects such as renewable energy integration, cooling, reflectance, recycling, roof gardens and parks
- multifunctional membranes
- new or potential applications for waterproof membranes - including case studies
- technical and economic issues in the global waterproofing industry

If you would like to give a 25 minute PowerPoint presentation please send a proposed title and short 1-2 paragraph summary of your topic to me before the **deadline of 28th April 2017**. The final presentation will be required 2 months before the conference.

Please remember the above list includes suggestions only. If you have a paper on a topic that is not included, I would still love to hear from you.

Other ways to get involved:

If you prefer being part of the audience, you can still join us. This fantastic event has lots of networking opportunities, such as a cocktail reception and coffee breaks after each conference session. To maximise your networking and represent your company and its brand in a creative way, book a table-top in our exhibition area or ask me about one of our sponsorship opportunities.

[Book now to get the discounted pre-programme rate for delegate places and table-top packages.](#)

If you would like to attend the conference at the early registration rate, take a tabletop exhibition space (sold on a first come first choice basis), or advertise through sponsorship with logos on the conference literature and web site with other promotional opportunities, please contact Giulia Esposito, Conference Organiser.

Email: ge@amiplastics.com Tel: [+44 117 314 8111](tel:+441173148111).

I look forward to receiving your paper offer. In the meantime, if you have any questions or need assistance please contact Giulia or myself.

Kind regards

Sylvia Tabero
