

SITE SUPERVISOR

Job description:

Geotest are seeking a Site Supervisor with experience within the Geomembrane / Construction Industry to join and support our team.

The role is fulltime and open for immediate start to the right candidate.

While the position is based in South Australia there will be necessity to travel and work interstate. Currently projects are located throughout Australia and New Zealand.

Qualifications and Licences:

- Proven experience in the Geomembrane / Construction Industry is a requirement, minimum 3 years' experience
- Current manual drivers licence
- Construction Induction Safety Certificate (White Card)

Requirements:

- Proven performance in supervising, meeting programmed objectives and financial targets
- The right to live and work within Australia
- Willingness to travel and work outside of South Australia on request on a roster basis and stay in camp-style accommodation

Geotest are looking for candidates with the ability to:

- Manage the installation of HDPE Geomembrane
- Lead and coordinate a team
- Demonstrate strong organisational and time management skills
- Plan and scope activities with efficiency and to budget
- Resource and source tools and equipment
- Understand construction methodologies and procedures
- Monitor and comply with safety requirements
- Solve problems and respond to delays and emergencies
- Meet deadlines and report work progress
- Communicate with our clients in a polite and in a professional manner

Applications:

Geotest, established and incorporated in the state of South Australia, is currently experiencing strong business growth within the Geomembrane Industry.

If you feel that you are well suited to this role and would like to be a part of our strong, dynamic and highly experienced team, then we welcome your application.
